

Martin & Whitacre Surveyors & Engineers, Inc.

Survey Crew Chief –

Martin & Whitacre Surveyors & Engineers, Inc. has an immediate opening for a Survey Crew Chief to work in our Muscatine, Iowa office. The work will include a variety of survey projects including Property Surveys, Construction Staking and Topographic Surveys. A typical crew will consist of the Crew Chief and a Rod Person, however some projects may require the Crew Chief to work independently. The crew will typically utilize robotic total stations, GPS and differential levels with the potential to work with bathymetric sounding equipment, terrestrial laser scanners and survey grade drone equipment.

Qualifications –

- Requires a minimum of five years of experience performing all types of survey projects, including boundary surveys, ALTA surveys, topographic surveys, construction staking, flood plain surveys and as-built record surveys.
- Robotic Total Station, GPS and basic Autocad knowledge required, Civil 3D and Leica equipment experience a plus.
- Strong communication, organizational and problem-solving skills.
- Valid Drivers License required.

We offer excellent growth potential and competitive wages with medical, dental and vision insurance, 401K and bonus package. Visit our website martin-whitacre.com for more information.
